

John Bars Quipia

React Developer

Makati City | 0998 597 2935 | john.barsq@gmail.com | github.com/john-bars

Profile

Frontend-focused developer with experience building responsive web applications using React, Next.js, and TypeScript. Interested in creating clean UI and scalable user-focused solutions.

Skills

Frontend: JavaScript, TypeScript, React, Next.js, Tailwind CSS

State & Data: Zustand (basic), Redux Toolkit Query (basic), REST APIs

Backend & DB: Node.js, MongoDB, Mongoose (basic), Prisma (familiar)

Tools: Git, Postman (API testing)

Projects

Portfolio Website (john-bars.vercel.app)

- Developed a personal portfolio focusing on accessibility, responsive layout, and performance using React and Tailwind CSS

DevFlow (devflow-bars.vercel.app)

- Built a responsive Q&A platform with authentication, form validation, and API integration using Next.js, React, and Tailwind CSS
- Implemented global state management with Zustand and server-state handling using Redux Toolkit Query
- Used Mongoose for basic schema modeling and database interactions
