John Bars Quipia

React Developer

Makati City | 0998 597 2935 | john.barsq@gmail.com | github.com/john-bars

---

Profile

Aspiring full-stack developer with experience building responsive web applications using React, Next.js, and TypeScript. Interested in creating clean, scalable, and user-focused solutions across the entire stack.

Skills

Frontend
JavaScript, TypeScript, React, Next.js, Tailwind CSS

State & Data
Zustand (basic), Redux Toolkit Query (basic), REST APIs

Backend & DB
Node.js, MongoDB, Mongoose (basic), Prisma (familiar)

Tools
Git, Postman

Projects

Portfolio Website – john-bars.vercel.app
Developed a personal portfolio focused on accessibility, responsive layout, and performance using React and Tailwind CSS.

DevFlow – devflow-bars.vercel.app
- Built a responsive Q&A platform with authentication, form validation, and API integration
- Implemented global state management using Zustand and server-state handling with Redux Toolkit Query
- Used Mongoose for basic schema modeling and database interactions
